## Testimonies from Bungoma Bible School Students

Evans Kiambi Kirmi came to Bungoma Bible School from the city of Meru in the Central District of Kenya.

I had given up on ministry due to abuse, discouragement and frustration from elder servants of God about 6 months before I came to Bungoma Bible School (BBS). I came here frustrated, devastated and a ministerial wreck - all my passion for ministry was gone.

My BBS teachers affirmed me for who and what I am in Christ. My past experience only focused on what I could do. I learned to live a practical life of faith in BBS. For instance, I began school with only Ksh. 6000 (*about \$88*) and no sponsor but God provided for my needs all through my studies. I have learned the practical reality of my gift making room for me. My gift as an interpreter has opened the doors of provision and of ministry.

This school has taught me the profit of hardship and suffering. Before I came I knew the attacks were from the devil, but now, I know “All things work for good.” And that God will always bring me to a place of victory.

I can't write all that BBS has done for me. I have been enlightened through the word of God so I am not ignorant. I clearly know my call. The courses at BBS are so balanced that true servant ministers, not Pharisees, are birthed and matured in it. My standards have been raised and my life will never be the same. God bless BBS.

The students testify to the changes that came from the renewal of their minds. Pray with us that all of our minds – students, teachers and supporters - are continually renewed so that our souls prosper. Then we can know and do what is God's perfect will for each of us, prosper and enjoy good health. Please pray in one accord with us. Agreement makes tremendous power from God available to all.

Eric Mouki came to BBS from the city of Taveta in the Coast (East) District of Kenya. He now pastors a Word of Life Church there.

My life has changed so much since I joined this school. First, through the lessons taught, prayers, and other programs conducted daily in the school, my relationship with the Lord became deeper, more purposeful and more joyful. I learned how to focus better on the will, purpose and plan of God for my life.

I have learned vital things about ministry such as church planting, administration, leadership, financial management and many other things from the knowledgeable and Holy Spirit filled ministers (leaders and teachers) of God in this school.

This school is truly a life-changing power point where ordinary men and women meet with God, and then ----- their lives never, never, never remain the same. Glory to God!!!

Here is another testimony of God's love, faithfulness and provision – the children and staff at the children's home.

God bless you all!!
