

What The Lord Has Done In Bungoma Bible School in 2006.

To our co-laborers in the ministry of reconciliation the Lord has given to us, we extend our most sincere appreciation for your ministries of prayer, encouragement, edification and support.

Word Of Life Christian Fellowship (WOLCF) is a growing local church family and the year 2006 was very eventful. Join me once again in thanking God for those who God added to His Church here by the miracle of salvation. They are to be nurtured, trained and disciplined by the Lord. We also thank Him the many who received miracles and gifts of healing.

We embrace each of you wholeheartedly and request that you continue to dig deeper into His grace. Grace is the unmerited favor and power of God. God calls and saves people when they are dead in sin - that is grace. God works in us so we may do His good pleasure - grace again. Then He gives us the ability to do that which He commands us to do that is far beyond our power or ability - more grace. Let us, as a church body, with thanksgiving appreciate that the more grace works in us the more we believe in Jesus and the more we have the love, boldness and power to venture out to preach to the lost. When we do so, we just dive deeper into the depths of grace. We desire to get deeper and deeper into grace till we are completely swallowed in it. As we live in God's grace we are bathed in His inward cleansing. By God's grace we are called to envision, pray and work towards being conformed to the image of Christ and to achieve more breakthroughs this year. His purpose for fellowship in the church is for the whole body and each member to grow, prosper and enjoy health. It is vital for the health of the church, which is a living organism, the body of Christ that we personally and corporately have absolute faith in Jesus and are submitted to God's will. Our historic faith assures us that all who follow Jesus Christ wholeheartedly will, by grace, enter into rest and experience His peace that transcends worldly understanding. We rest in that peace with knowledge that Jesus has already paid our real debt. Scripture reveals that as we daily submit faithfully to God's will (take up our cross and follow Him) that He will use us for larger purposes than our individual and personal desires and interests can hope or imagine.

We were led of the Lord to plant more churches in 2006. Thus being the case, we planted the following nine churches: - ***Sikalame, Oyugis, Leletnet, Lokichogio, Shibale, Mungore, Sikata, Githurai, (NRB) and Langas (Eld).*** WOLCF now has 43 sister churches. When God called WOLCF into existence, He had a plan and purpose for it to win souls and nurture them to know Christ as their Lord and to hold fast to the reality of eternity.

Our first Degree class graduated from Bungoma Bible School on 1st December 2006. I give special tribute goes to Mama Doris, the teaching staff and the support staff of Bungoma Bible School and its students. The teachers ministered with both elegance and hard work. Their performance embodied the tradition and achievement that defines the special role BBS staff must assume at all times. The students were diligent in their studies and in the application of what the Lord taught them. This could not have been possible without the relentless support of your prayers. I feel greatly honored to remember your input with the deepest admiration and affection, and will always feel honored by the journey that we're traveling in an effort to reach our divine destiny.

We had seven weddings in Bungoma in 2006 and to many more weddings in our sister Churches.

NEKESA - "The Harvester" January, 2007

Lastly, We were blessed and greatly honored to host many servants of the Lord who ministered to us and were a major blessing to this church. God used them in the Word Camp Conference, in married couples seminars, in the Home coming Seminar, in the Ladies Explosion Conference, in crusades, in the Bible School and in many other works.

We began the year in the orphanage by adopting Moses Baraka who was found abandoned in sugarcane plantation. He was in an awful, dreadful state but is now very different – healthy, happy and confident. The 22 children accept it as their home of adoption and maintain an intensely peaceful, purposeful and focused approach to life and studies. They are disciplined, friendly and very receptive to advice. We see these attitudes as enduring symbols of good times – a hope, a future and an expected good end – ahead for these children. We thank all those who pray for, give money to and otherwise help minister to the children.

Thank you and God bless you all.

Justus Ochuro

Pastor WOLCF
