

NEKESA - "The Harvester" April, 2008

Dear Brother Allen,

Greetings in the Name of the Lord. I hope the pictures came in OK.

The roof was blown off the Bible School building Saturday night during a big storm that destroyed a lot of property in Bungoma.

The iron roofing sheets were torn and bent beyond reuse and the running timbers the iron sheets were nailed to were all destroyed. The concrete block walls were cracked and broken. The rain ruined the ceiling and the classroom partitions.

We will have to replace the broken concrete blocks, replace the whole roof, replace the ceiling and replace the classroom partitions. This is a list of what we need.

Pastor Justus Ochuro

Material	Quantity
Timber	3x2 1500 ft
	6 x2 1350 ft.

Ridges	20pcs
Paint	
Gutters	
Transportation	
Bricks	1000
Labor	

Dear

Brothers and Sisters,

Justus sent me the letter above. God is giving revival in Kenya and this is just a part of the devil's resistance. We know that our faith must be tried by fire. This is a fire. Please pray in agreement for the victory over this attack and for God's supply for every need – both yours and ours.

In His service,
Allen James
