

Orphan testimonies

MARTIN ITILA IDEWA

I have a mother but my dad died. Here at this home I am bought shoes, clothes and I eat three times per day.

When I am sick, they take me the hospital. When I came here, they bought me school uniform and I was taken to school because I was not learning while at home. Now I am in standard 4.

The beddings are clean and I sleep in a mosquito net to protect me from getting malaria. Our home is good; it has electricity and water for bathing.

Visitors come and give us gifts.

I like playing football (soccer), singing, praying, riding a bicycle and eating.

Thank you for helping me to live a good life.

CALSON JUMA

I like our home very much.

I eat very well; breakfast, lunch, and supper.

We go to church every Sunday in a van. I pray

before going to bed and I have a good bed. I go to school and have got a uniform and shoes. When I am sick, I am taken to the

hospital. I like playing football (soccer) and singing.

I am very happy.

Thank you for helping me to be with a family.

Please remember that English is their third language. Notice the things that they are thankful for: food, clothes, shelter, medical care and education. Carlson is thankful for being with a family. The caregivers at the orphanage give the boys individual care and foster a family, brotherly atmosphere. They are learning to know Jesus and see Him manifest through the workers and visitors.

What a privilege we have to be Christ's ambassadors to these boys. What a joy to see them becoming brothers in Christ and growing up to reach their full potential that God has put in each of them. Thank you, our co-laborers.

We thank God that He loves a cheerful giver, that He gives them seed to sow and that He rewards those who diligently seek Him. God Bless You!
