

NEKESA August, 2009

EVANS OKETCH

I am happy because:

- I am given enough food three times a day.
- When I am sick our parents* take me to the hospital.
- I have school uniform and shoes and I go to school daily. Before I came here I had not started going to school, but now I am in class 4.
- I have good bed, mosquito net.
- I go to church every Sunday in a van.

Hobbies: - I like going to school and playing football.

SADICK WANJALA

Both my parents passed away and are in heaven with God. Our home is nice. We eat three times a day. We have electricity and water for bathing. I have a big bed, with a mosquito net, a blanket and sheets. I go to school. When I came I was in the nursery but now I am in standard four. I like visitors to come because they bring us gifts and sweets.

We go to church every Sunday in a van. Thank you for being my parents.

Hobbies: - I like playing football and reading.

It is wonderful to see the boys consider the Children's Home workers to be their parents. When I visited them, I was impressed at the love, harmony and discipline that was evident. Every child seemed quite happy.

The boys you see here and in the June and July Nekesas have "outgrown" the Children's Home and have been placed in permanent foster homes. We provide the foster families funds to continue to care for the boys, as they were cared for in the Children's Home. Each of these boys has been "adopted" by a person or family here who has committed to care for them until they graduate from high school.

We are so thankful for each of our co-laborers whose prayers and support make it possible for these boys to be rescued from living on the street where they are exposed to starvation, the elements, mosquitoes, disease, drugs and crime. This is a growth of the ministry to serve the people better. The rest of the ministry – equipping the saints, going about doing good, healing the sick, casting out demons, evangelizing new communities, ministering to the poor and other areas of service – is going full steam ahead. It is God's will for all men to be saved and we are working, as faithful ambassadors, to sow every seed that He wills us to sow; He gives the increase and we give Him all the thanks, praise, glory and honor. Allen James
