Caleb Mwanja's Personal Testimony

I think Bungoma Bible School (BBS) is one of the best places I will ever be in my entire life. In the short time that I have been here, my vision and my life priorities have changed tremendously because of the opulent spiritual climate that is filled with tangible anointing and God's glory.

We must understand that the only way for one to reach their destination in life is to effectively pursue their high calling in Christ Jesus. There are divine stopovers appointed for us where we are equipped and prepared. BBS is such a stopover. Here is where spiritual revolutionaries, world changers and end time warriors are raised, equipped and trained to go to the nations. Their co-laboring with Jesus will populate heaven by preaching the message of hope and salvation through Christ Jesus and depopulate hell by destroying the works of darkness through our God given authority in the Name of Jesus.

Although I have been here for only one and a half years, I have received divine impartation and inspiration from the staff. Their ministry is generous and sacrificial in spiritual things. They are anointed to instruct students with information and to impart the ability to rightly divide the Word of Truth. The instruction and

impartation I have received has put me on the path to become a spiritual giant who is able to control every area of my life (Eph. 4:12-16). I have received a deposit that can never be drained for the rest of my life. This experience has fueled my life with great passion and desire to see the church walking in her spiritual heritage and possession.

BBS offers us a rich training program including a forum with the president of this institution who has been in the ministry for over twenty-five years. He is a great man of God, a teacher, a pastor, a mentor and a spiritual father who has raised great sons in his ministry. We have gained skill and benefited from his advice and counsel in different fields of the ministry. His mentorship and fatherhood impels us to do exploits. Our experience here has opened our eyes to see beyond the limits of our denominations.

BBS is a place staffed with people who are making a difference. The equipping we receive here is essential for anybody who has a desire to serve Jesus. Young men and women who study here are set ablaze to go and raze the plantations of the enemy and turn the cities upside down for Jesus. I will never regret a single second I have spent in this place. May the Lord bless the Founder, Director and all the entire staff.

Bungoma Bible School was the first ministry work begun here and remains our core ministry. It differs from most Bible schools in that it is free and it incorporates classroom instruction with hands on experience in crusades, church activities and serving other needs. You can also tell that through it God imparts hope to its students.
