

Crusade In Kimaeti

and either went without food for days or did not have decent

meals upon their tables every day. This was the working of Jehovah Jireh (He who provides).

The Lord put it upon Ed and Dana Trim's hearts to take the gospel to the small village of Kimaeti.

They were led to preach the word and then to feed all the people that attended the crusade.

Brother Ed, Dana and other servants of God served bean stew with rice to the people. This is a local delicacy. The people, who turned up in large numbers, were very happy with the food.

The food was a great blessing because many of the families in the village were poor

The best part came when the people gave their lives to Christ. There was joy amongst men and also in Heaven

because the calling to go to the Nations and preach the gospel and spread the good news of the Lord Jesus Christ was being fulfilled by the se anointed servants of the almighty God. Very many people gave their lives to the Lord and received deliverance from sin and the chains of poverty, alcoholism and witchcraft were broken. They were freed when the blood of the Lord Jesus Christ saved them.

The crusade in the village of Kimaeti lasted for a week and ended on a Sunday when Brother Ed and his lovely wife Dana opened the new church building. Building the new church building was something else that the Lord had laid so strongly upon Ed and Dana's hearts. They blessed the Lord's work here in more ways than we have space to tell.

God bless you,
Justus
